

## CARTHAGE LABORER ARRESTED FOR KILLING KENTUCKY MAN

Jack Pod Conn is Held in Jail  
Here For Crime Alleged to Have  
Been Committed 2 Years Ago

### EMPLOYED AT STRAW BOARD

Rowan County, Kentucky, Judge  
Sends Bench Warrant to Carthage  
Marshal for Conn's Arrest

### DENIES HE IS GUILTY

Conn Recalls the Circumstances, Re-  
marking That He Was "Shot up  
in the Hollar"

Jack Pod Conn, a native of Ken-  
tucky, was arrested this morning at  
Carthage on a charge of wilful murder,  
and is being held in jail here  
awaiting the arrival of officers from  
Rowan county, Kentucky, where the  
alleged murder took place more than  
two years ago, January 20, 1921.

The Rowan county judge, J. W.  
Riley, sent a bench warrant to Wil-  
lard Minor, town marshal at Car-  
thage, for the arrest of the defend-  
ant, and after the marshal appre-  
hended him this morning, he called  
sheriff Hunt, who was accompanied  
by Chief of police Blackburn, and  
the man was brought to jail here.

The arrested man has been living  
in Carthage since about the first of  
March, and was employed in the  
straw board factory as a laborer.

Following his arrest, he denied  
having any connection with the af-  
fair, other than remembering when  
it happened, and the circumstances,  
remarking that he was "shot up in  
the hollar." He told Sheriff Hunt that  
he knew the man who had done the  
killing.

The warrant for his arrest came  
from Judge Riley at Morehead, Ky.,  
the county seat, and the affidavit is  
signed by I. S. Edens. The affidavit  
alleges that Jack Pod Conn, on Jan-  
uary 19, 1921, "did shoot and wound  
the affiant's son, Ora M. Edens, and  
that he died on the day following  
from the wounds, and that the mur-  
der was wilfully committed" con-  
stituting first degree murder.

The defendant did not seem to  
take the matter seriously, and denied  
his guilt, assuring the officers that  
he was not the man they wanted.  
When arrested he was in the act of  
shaving, and asked one of the officers  
to shave the back of his neck, to  
which the police chief complied.

Sheriff Hunt notified the judge in  
Kentucky that the man was being  
held here, and he will be detained  
until the officers from that county  
come for him.

## ACCEPTS FAILURE AS VICTORY FOR DEFENSE

William Z. Foster Regards Action  
Of Jury In Failing To Agree As  
Vindication Of Himself

### JURORS STOOD SIX TO SIX

St. Joseph, Mich., April 6.—Wil-  
liam Z. Foster, labor leader today  
accepted failure of the jury to agree  
in his trial on charges of violating  
the Michigan syndicalist law as a  
victory for the jury and defense.

Foster declared it remarkable that  
six members of the jury "naturally  
prejudiced against revolution and  
violence and all the things talked  
about could keep their conviction  
that a case had not been made. It  
is for the best and also a victory  
for the jury."

Prosecution attorneys intimated  
that they will decide whether the  
case will be re-tried after a trial of  
other alleged communists arrested  
in the Bridgman Mich. communist  
convention raid.

The Foster jury stood six to six  
when dismissed by Judge White late  
yesterday.

### 3-DAYS-OLD BABY DIES

Carl, a three-days-old son of Mr.  
and Mrs. Anthony Rosfeld, of Center  
township, expired this morning. The  
funeral will be held Saturday and  
burial will be made in Brookville.

## ROY LEMEE GIVEN FREEDOM

Milroy Man Released On Advice  
From Ohio Authorities

Roy Lemee of Milroy, who was  
held in jail over Wednesday night  
on a charge of non support for a  
divorced wife living in Bryant, O.,  
was released from jail Thursday  
when a message was received to the  
effect that he would not be sent for  
by Ohio authorities.

He was held here without a war-  
rant, and would have been released  
when the 44 hours expired.

## THIRTEEN IN THE MOSCOW CLASS

Annual Commencement Will Be Held  
For Graduating Class At Chris-  
tian Church April 24

### CLASS PLAY SET FOR APRIL 12

"The Private Secretary," Three-Act  
Farce Comedy To Be Presented  
By Cast Of Eleven

"The Private Secretary," a three-  
act farce comedy by Charles Haw-  
trey, will be presented by the senior  
class of the Moscow high school on  
Thursday, April 12, at the  
Star Hall in Blue Ridge. The gradu-  
ation exercises will be held April  
24.

There are thirteen in the class this  
year and eleven are taking part in  
the play. This play is a most hum-  
orous one and is one of the plays  
most highly recommended by In-  
diana University for high school pro-  
duction. Miss Clara Bird, the En-  
glish teacher of the Moscow high  
school, is coaching the play.

The cast has been working dili-  
gently for several weeks and they ex-  
pect to present a play that will be  
most satisfactory to all and a credit  
to themselves. The cast of charac-  
ters is as follows: Mr. Marsland,  
Iden Hungerford; Harry Marsland,  
his nephew, Norman Coleman; Mr.  
Cattermole, Earl Riley; Douglas Cat-  
termole, his nephew, Chester Alter;  
Rev. Robert Spalding, "The Private  
Secretary," Maurice Parker; Mr.  
Sydney Gibson, tailor of Bond street  
Cecil Hardy; John, a servant, Har-  
vey Green; Knox, a writ server, Ma-  
jor Crane; Edith Marsland, a daugh-  
ter to Mr. Marsland, Alice Shaw;  
Eva Webster, her friend and com-  
panion, Lucille Reiger; Miss As-  
ford, house keeper and "Mother" in  
Mr. Marsland's home, Ethel Gos-  
nell; Mrs. Stead, Douglas's landlady  
Florence Hungerford.

Tickets are now on sale by each  
member of the class for the prices  
of 25 and 35 cents. They will also  
be on sale at the door, the night of  
the play.

The commencement of the Moscow  
high school will be held April 24, at  
3 o'clock in the Christian church at  
Moscow. There is a fine class this  
year of thirteen members, six girls  
and seven boys.

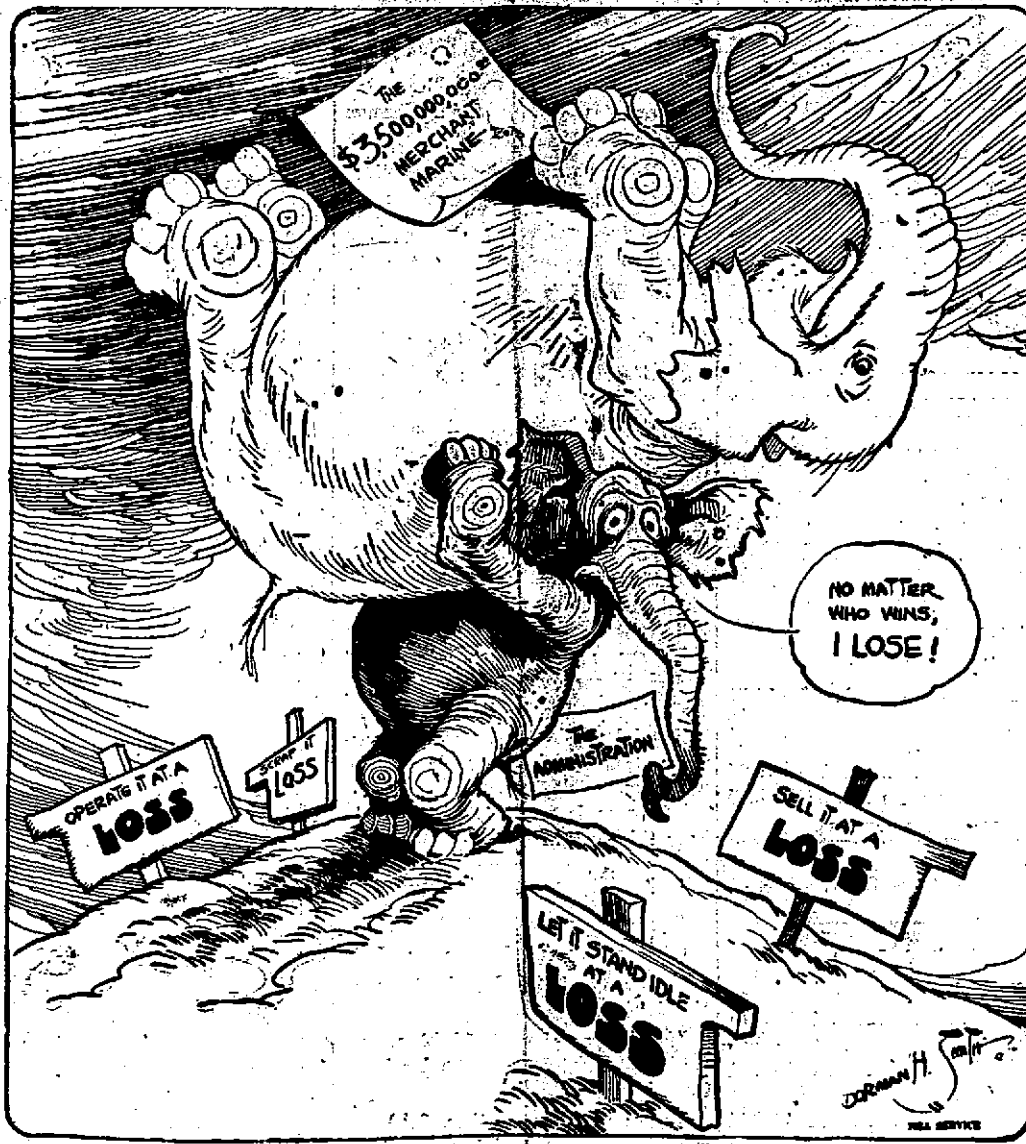

Rollin Turner, of Greensburg, will  
deliver the address. He is well  
known as a most gifted speaker.  
The Floethlyn Orchestra, also of  
Greensburg will furnish the music.  
They are a splendid orchestra and  
the class is being congratulated on  
being able to offer such good talent  
for the annual graduating exercises.

The members of the graduating  
class are as follows: Chester Alter,  
Mabel Callahan, Norman Coleman,  
Ethel Gosnell, Cecil Hardy, Harvey  
Green, Florence Hungerford, Iden  
Hungerford, Helen Mook, Maurice  
Parker, Lucille Reiger, Earl Riley  
and Alice Shaw.

### FATALITIES IN INDUSTRY

Indianapolis, Ind., April 6.—  
Only 25 fatalities resulted in a  
total of 4,644 industrial accidents  
reported in Indiana during March,  
according to a report of Helen  
Troutman, statistician for the state  
industrial board made public. The  
automobile industry was respon-  
sible for 391 accidents, none fatal.

## THE WHITE ELEPHANT

## YEGGMEN GET AWAY WITH OVER \$2,500

Tactics Used at Warsaw Postoffice  
Same as Used at Columbus, Bed-  
ford and Other Cities

### MANY LETTERS ARE OPENED

Warsaw, Ind., April 6.—Between  
\$2,500 and \$3,000 was procured by  
yeggmen who blew the safe in the  
Warsaw postoffice early today.

The robbery was the most recent  
of a series in Indiana and postal  
inspectors investigating it declared  
they were all committed by the same  
gang. The tactics were the same as  
those employed at Columbus, Bed-  
ford and other places where the  
postoffices have been looted during  
the last few weeks.

Receipts of the local office for  
Thursday, a large number of stamps  
and registered mail was taken. The  
inner compartment of the safe which  
was pried loose after the outer door  
had been blown off with nitro glycer-  
ine, was also missing.

Working leisurely, the yeggmen  
opened numerous registered letters,  
extracted the contents and left the  
envelopes scattered about on the  
floor.

The postoffice building is within a  
block and a half of the jail. The ex-  
plosion was heard a block away, al-  
though the safe was covered with  
empty mail pouches to deaden the  
sound.

The robbery was discovered at 4  
o'clock by Carey Brennanman, when  
he went on duty. The office was filled  
with smoke when he entered.

## WILL REMAIN IN RUSHVILLE

Paul Allen To Continue As Adver-  
tising Manager At Casady's

Paul Allen will remain in Rush-  
ville as advertising manager and as-  
sistant store manager for the E.  
R. Casady dry goods store, it was  
announced today by Mr. Casady.

Mr. Allen, who was formerly con-  
nected with this store left a few  
years ago, and shortly before com-  
ing here the first of this year, dis-  
posed of a store which he owned at  
Rensselaer, Ind. He came to Rush-  
ville to take charge of the local  
business while Mr. Casady spent the  
winter in Phoenix, Arizona with his  
son, Readie Casady.

Mr. Allen will be in charge of the  
advertising and of the first floor  
and Mr. Casady will be in charge  
of the ready-to-wear and carpets  
and rugs departments.

## Americans Called Upon to Reconsecrate Selves to Purposes America Fought For

Indianapolis, Ind., April 6.—  
The American people are called upon  
to reconsecrate themselves to the  
fulfillment of purposes for which  
America entered the World War, in  
a statement by Alvin M. Owsley,  
national commander of the American  
Legion, issued through the UNITED  
PRESS today, the anniversary of  
this country's declaration of war.

"Let us prove our regard for the  
dead, broken and maimed by com-  
bating those forces which today  
threaten to undermine the princi-  
ples of our society and government,"  
Owsley said.

By ALVIN M. OWSLEY  
(Written for United Press)  
Six years ago today America  
dared to declare a state of war ex-  
isted between our nation and the  
most powerful military government  
the world has ever known.

Aroused to a solemn realization  
that the principles of Democracy and  
fair dealing among the civilized na-  
tions of the world were about to be  
overthrown by the overt actions of  
men maddened with the lust for  
power and conquest, our people took  
up the fight for the preservation of  
our national integrity.

Against the crusading enthusiasm  
of the American fighter, the power-  
ful German military machine could  
never prevail. The citizens of a  
great Democracy triumphed over the  
followers of an autocratic mon-  
arch.

The cost of America's effort was

great. Lives were blotted out by  
the thousands; maimed and dis-  
figured for life, thousands of the  
country's defenders returned to their  
homes to struggle for existence in  
competition with those untouched by  
the horrors of battle.

The memory of the dead and the  
suffering and sacrifice of the liv-  
ing will never be forgotten by the  
patriotic citizens of America. In  
support of the American Legion,  
whose members are the comrades of  
those who fell in the fight, the peo-  
ple of the United States are pre-  
paring to raise a sum of money to  
provide for the permanent annual  
decoration of graves of our war  
dead in Europe one each Memorial  
day. In every community on May  
30, they will wear the French poppy  
hallowed by its war associations, in  
memory of our immortal dead.

Let us reconsecrate ourselves to  
the fulfillment of those purposes for  
which we entered the World Strug-  
gle six years ago today. Let us  
prove our regard for the dead,  
broken and maimed by combat-  
ing those forces which today threaten  
to undermine the principles of our  
society and government. Our ser-  
vice in peace as in war, is neces-  
sary for the preservation of the  
fine ideals of Americanism which  
have made our nation great.

For God and country, for our  
glorious flag, let us re-establish in  
the United States of America the  
spirit of April 6, 1917.

Mebbe there is some truth in th' of  
sayin', "One swallow don't make a  
spring;" these days, however, we gotta

## LIQUOR FOUND IN A BARN NEAR CARTHAGE

Rose C. Small is Arrested on Illegal  
Possession Charge and Gives Bond  
For \$1,000

### DISCLAIMS KNOWLEDGE OF IT

Rose C. Small, a resident of Car-  
thage, whose farm lies just east of  
the school house, was arrested late  
Thursday on a charge of unlawful  
possession of liquor, and was al-  
lowed to go on bond which he gave  
this morning in the sum of \$1,000,  
in the circuit court.

Deputy Sheriff Spradling and de-  
puty Glendenning, assisted by Chief  
of Police Blackburn, went to the  
Carthage farm and conducted the  
search. The liquor, which was con-  
fiscated was found in the barn, and  
consisted of a quart and a half. Two  
5 gallon jugs and empty bottles  
also were found.

The arrested man stated that he  
did not know the liquor was in his  
barn, and that it must have belong-  
ed to a colored man who worked for  
him last fall. The officers stated that  
the bottles and jugs were not dust  
covered, and bore marks of having  
been handled recently.

The defendant will probably be ar-  
raigned before Judge Sparks in a  
few days, when a plea can be en-  
tered.

## MILROY MAN IN NARROW ESCAPE

Virgil Murphy Thrown Clear of  
Wreckage When Truck is Struck  
By Big Four Train

### ACCIDENT NEAR SHELBYVILLE

Seven Hogs, a Cow And a Calf Are  
Instantly Killed in Crash—Seven-  
teen Hogs Unhurt

Seven hogs, one cow and a calf  
were instantly killed, but Virgil  
Murphy of Milroy escaped without  
injury when an automobile truck  
loaded with live stock, which he was  
driving, was struck by a Big Four  
passenger train Friday, just north of  
Shelbyville, while he was enroute  
from his home to the Indianapolis  
stock yards.

The accident occurred at the in-  
tersection of the north Michigan  
road with the Big Four railway, as  
the 11:04 westbound passenger train,  
running 35 minutes late, struck the  
livestock truck, which had almost  
cleared the tracks. A peculiar trick  
of the accident was that 17 head of  
hogs in the truck were uninjured as  
they were near the cab of the ve-  
hicle, while the stock in the rear  
of the rack received the full force of  
the collision when the engine struck  
the truck.

Mr. Murphy was on his way from  
Milroy to the Indianapolis stock  
yards, via Shelbyville and had just  
left Shelbyville, traveling north. He  
approached the crossing without  
hearing the train and is said to have  
driven onto the track when he re-  
alized the train was bearing down on

## I. & C. CAR DAMAGED BY FIRE

Blaze On Roof Extinguished With  
Chemicals By Fire Department

A west bound I. & C. Dispatch,  
was slightly damaged by fire this  
morning shortly before nine o'clock,  
at the corner of Third and Main  
when the bow trolley is believed to  
have set fire to the roof of the car.  
The motorman brought the car to a  
stop on th Main street crossing, and  
the motor pumper from the fire  
station reached the scene instantly,  
and the blaze was extinguished with  
chemicals.

A hole was burned in the roof,  
and the loss was expected not to  
exceed \$10. The car was delayed  
only a few minutes, and the loss  
would no doubt have been greater  
if it had not been discovered early.

The pumper was called at 11:45  
this morning to the residence of  
Mrs. Florence Pearce, Fourth and  
Jackson streets, when a fire was  
burning out, but no damage resulted.

## BUSINESS ON HIS VACATION SHOWED LOSS

Walter Hubbard Testifies Sales at  
Drug Store Declined \$23.51 a  
Day While He Was Away

### PICKED UP ON HIS RETURN

First Witness For State in Em-  
bezzlement Trial of Mary Ellen  
Hughes, Former Clerk

### OPENING STATEMENTS MADE

Jury Obtained Thursday Evening  
and First Evidence is Introduced  
This Morning

The case of the state against  
Mary Ellen Hughes, charged with  
embezzlement, was in full swing to-  
day in the circuit court, with Walter  
Hubbard, proprietor of the F. H.  
Johnson and Company drug store,  
as the first witness for the state,  
representing the prosecuting firm, by  
whom the defendant was formerly  
employed.

The witness did not take the stand  
until 10:30, following the conclu-  
sion of the opening statements by the  
attorneys, and it was expected that  
most of the afternoon would be given  
over to his testimony, as he was  
regarded as the principal witness for  
the state.

The case will no doubt hang over  
until next week, because of the large  
number of witnesses called by each  
side. There is little possibility of the  
case reaching the jury until some-  
time Tuesday.

Interest in the case was in-  
creased today, and many specu-  
lators were turned away, unable to  
admission inside of the courtroom  
doors.

Mr. Hubbard's testimony was tak-  
en up with questions regarding the  
bookkeeping systems, cash register  
handlings and money matters in gen-  
eral to which the defendant had ac-  
cess.

He reiterated several cases of ir-  
regularities on the daily cash slips  
taken from the cash register. He  
stated that on September 27, a cus-  
tomer purchased a bottle of medicine  
which sold for 60 cents, and that he  
passed by the cash register and the  
defendant had only registered a ten-  
cent sale.

When questioned about the vol-  
ume of business recorded during the  
period when Mr. Hubbard took a 13-  
days vacation last August, he stat-  
ed on examination that the 13 days  
business amounted to \$963.84. He  
said that when he returned

## NEW DEACONS AND ELDERS ARE NAMED

Annual Election Takes Place At  
Congregational Meeting Of First  
Presbyterian church

### CHURCH CENTENARY IN 1925

The annual congregational meet-  
ing of the First Presbyterian church  
was held Thursday night. All were  
delighted with the attendance and  
spirit of optimism that showed it-  
self both in the social hour and the  
business session.

All reports show the church to be  
in good condition for an advance  
along all lines of church activities  
during the new year.

The following new elders were  
elected to the session: Henry W.  
Schrader, Richard Beale, M. V. Spr-  
ey and John Abercrombie.

The following new deacons were  
elected: Irwin Kinnear, Lee Pyle  
and Halbert Brown.

Former members of the church  
boards were re-elected.

The sessions was directed to  
take such steps as are necessary  
to the proper observance of the one  
hundredth anniversary of the church,  
which is to be celebrated in 1925.

The newly elected officers will be  
ordained and installed in the office  
Sunday morning, April 15.

**Woman Power of America**

Well illustrated by the thousands of women who are entering every profession, almost every line of business and politics as well. They are bound to make good, and there is no question but what health is their greatest asset. Many women, however, develop weak, nervous conditions and cannot stand the strain of a professional or business life. Such women should remember when beset with headaches, backache, nervousness, irritability or any ailment peculiar to their sex that the greatest of all remedies for such conditions is Lydia E. Pinkham's Vegetable Compound. For nearly fifty years this old-fashioned root and herb medicine has been restoring the women of America to health and strength. It holds the remarkable record of helping 98 out of every 100 women who try it.

**RECORD FOR HOMEDALE FARM**

Eighty-Six Hampshires Sell In One Hour And Ten Minutes

Again the old Hampshire sow made history for the Homedale stock farm at the Hampshire brood sow and open gilt sale Thursday at the Homedale farm of Conway and Utler south of Glenwood. It was regarded as one of the snappiest sales held in a long time, with a large attendance and many real buyers present.

Eighty-six head were sold in one hour and ten minutes, five men buying the entire offering, three of whom purchased eighty out of the eighty-six head, which is regarded as a wonderful record. Most of the hogs went to eastern Indiana and western Ohio.

The brood sows were all 1922 farrow and they averaged \$53.65 a head. The open fall gilts averaged \$26.80.

**HAD CLOSE SHAVE**

"My wife and children thought I was dying when, after an attack of acute pains in my stomach, I became unconscious. It was right after our Sunday dinner. They say I looked like dead and guess I had a pretty close shave. I had been having more or less stomach trouble and bloating with gas for past two years and could get no permanent help. Talking with a friend about my attack, he advised me to try May's Wonderful Remedy. I have not had any gas or stomach trouble since taking it eighteen months ago." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale by druggists everywhere.

He was thrown clear of the wreckage and reported no injuries when questioned following the accident. The seven hogs, cow and calf were instantly killed from the blow that tore away the entire rear of the truck and also damaged other parts of the car.

The 17 hogs that remained from the lot which formed the shipment were taken to Indianapolis shortly after the accident. The train was delayed here for a considerable length of time before proceeding west.

If I Built Houses—

I WOULD make a profit out of the very thing that most builders consider waste. I would make it part of my business to gather the scraps of lumber strewn around every newly finished building that I completed, and I would sell this lumber for the various purposes to which it is suited.

Want Ads in The Daily Republican would be my means of telling Rushville people about the materials I had for sale. I could reach nearly everybody in the city at a low cost.

**MINERALS FOR SWINE**

What Ohio State University Agricultural Extension Service Says About ACME MINERAL CO., Wheaton, Illinois.

"Relatively little has been said in the past about feeding mineral to hogs. But of late special attention is being given to this feature of feeding. The present trend of hog production is toward larger hogs. This being true, it takes more bone to support these heavier hogs. Stronger bone means that there must be more mineral matter supplied in the feed to produce it. Experiments show that in average hog feeds hogs do not secure enough mineral matter to produce sufficient bone, and it is more true in the growing of these larger present-day animals. The only way to meet this need, then, is to feed the hogs, especially growing pigs, some special mineral mixture."

The ACME MINERALS that we are manufacturing are made according to the complete Mineral Formula with the nine different ingredients which was worked out at the Iowa Experimental Station by Prof. Evvard, and we will ship to any farmer or feeder the nine different ingredients sacked separately and they may mix their own if they choose at the same price per hundred as the ready mixed.

In buying your mineral mixture, be sure that you buy the complete Mineral Mixture with the nine different ingredients and beware of imitations.

## TO LINK UP MAIN HIGHWAYS

(By United Press)

Indianapolis, Ind., April 6.—Hard surface road program for 1923, 1924 and 1925, costing approximately \$27,811,000 was outlined today by Governor McCray and the state highway commission.

The program designed to carry out part of McCray's aim to make his "mark" in highway and educational improvement, calls for construction of 958.9 miles at an estimated cost of \$29,000 a mile. This total will be divided as follows:

153.9 miles in 1923; 405.5 miles in 1924; 399.5 miles in 1925.

It was said the construction will link all important roads in one continuous net work of highways.

## BUSINESS ON HIS VACATION SHOWED LOSS

Continued from Page One  
that the next 13 days showed a total of \$1,209.58, while the defendant was taking her vacation, and that the daily sales in cash amounted to \$23.51 more when she was not there.

Much of the testimony consisted of cash register slips, in which the state attempted to prove that the defendant repeatedly pushed the "no sale" button on the cash register to "cover up on the previous sale."

Little progress was made at the trial on the opening day because of the difficulty experienced in getting a jury, and the twelve jurors were not accepted until 4:25, when they were sworn in by the clerk.

The jurors selected and who are hearing the case, consist of the following: Lon Kiser, Thomas Bishop, Charles Nordlow, Will Arnold, George Gahimer, T. C. Gray, Herb Dearing, John Stark, Peter Nichol, John Murphy, Clem Gardner and Ollie M. Offutt.

Prosecutor Ketchum opened the trial with a statement as to what the state expected to prove in the case, and when he finished at 5:10 court adjourned until this morning.

Mr. Ketchum stated that the specific charge in the indictment was that the defendant had taken \$228.50 from the funds in her trust, while an employ of the F. B. Johnson and Company drug store in this city, which covered a space of time amounting to almost a year, ending in the last of September.

The prosecutor stated that the state would prove that she had acquired more money than that, and that approximately \$1,200 could be accounted for during the period of time set out in the charge.

He stated that the defendant was given a position of trust and had charge of the cash register drawers of the various clerks, including the drawer used by Walter Hubbard, the proprietor and that her evening duties consisted in checking up on the drawers, and tabulating, the amounts.

Continuing his statement, Mr. Ketchum stated that the state would show by its evidence that the defendant on several occasions would receive money from a customer, and would register up a smaller amount than was actually received, and im-

# "All Advertising Is Retail and Local"

"All advertising is retail and local in the end, no matter where printed or by whom paid for," writes James H. Collins, business expert.

Every manufacturer or distributor who advertises should tack that sentence over his desk and read it over before he plans a campaign.

Unless your message is retail and local, it misses the mark, for final sales are both retail and local.

The evening daily newspaper, being essentially local, and the great mouthpiece for the retailers, is obviously the medium for the thoughtful manufacturer who is looking for sales where market conditions are favorable.

mediately ring up a "no sale," which would cover the amount registered.

The state's attorney then stated that on an evening when she would check up her drawer, she would count off what the slip actually had recorded in the cash register and all over the amount, she would acquire for her own pocket.

This evidence, he said, would be substantiated by the clerks in the store who had watched the transactions, and by a customer, James V. Young, who purchased a dollar bottle of medicine and a ten cent cigar, giving the clerk a silver dollar, that was marked and two five cent pieces.

The prosecutor said that the defendant on this transaction registered up a sale of ten cents on the cash register, and then pushed, up the "no sale" mark, and that the customer of the store saw the transaction, and that later in the day, the defendant was approached on the matter by the proprietor, and the marked dollar was found in her pocketbook.

The attorney stated that at this time she was confronted with the question of taking funds, and admitted that it had gone on for four months, but could not tell how much she had taken.

The prosecutor said that another portion of her daily routine in the store, was the handling of the books for the Indianapolis Star, of which the local firm is the agent here, and she is charged with having registered false amounts in receiving the money from the carrier boys, and that on one Monday morning her share alone was placed at \$68 by the prosecutor.

The attorney stated that many cases of this kind would be proven by the books and by actual slips from the cash register and from entries made in her hand writing.

During last summer, when the defendant was on a vacation from the store, the prosecutor stated that the daily sales of the firm averaged \$23 or \$24 better than when she was in the employ and that the sales dropped when she returned from her vacation.

The state will attempt to prove, according to the prosecutor, that the defendant during her employment, spent considerable money, and that her salary was \$12 a week; that she purchased expensive clothing, attended theatre parties, bought furniture, installed electric lights and fixtures in her home, had paid for dental work on herself and relatives and shortly before her arrest was dealing with an automobile agency for a new automobile, and had represented to the agency that she would pay cash.

The state also stated that they would prove that she had a banking account in three local banks, and had purchased \$200 worth of bonds from a local agent, and in conclusion Mr. Ketchum stated that she was without other means of employment and could not have expended so much money, unless the charge upon which she is being tried is correct.

This morning when court convened at 9 o'clock, C. W. Duncan, attorney for the defense, made his opening statement to the jury, requiring until 10:20 for his remarks, in which he attempted to show the jury that the defendant would be proven innocent beyond a doubt.

The attorney characterized the management of the store as being on too extravagant basis and that the loss in business was not due to the clerk taking money. The overhead in operation he said, caused the bank accounts to dwindle each week, and that the store was paying out more money than was taken in.

Mr. Duncan stated that the firm

had purchased an old second hand cash register with which to do business, and that it had made many mistakes, which would be proven, he said, and that the equipment on the register made faulty calculations at times, and was not accurate.

The attorney stated that S. G. Rucker, a former clerk would testify that the cash register had caused trouble and that they had checked it up on one occasion and found a mistake in the addition mechanism of the machine.

He said that other testimony would be given to show that the cash register was faulty, and that experts had been called several times to straighten it out.

Mr. Duncan stated that every allegation entered into by the state would be proven false, and that the defendant had not obtained a cent falsely, had not negotiated to buy an automobile, had not spent money lavishly on friends or members of her family, nor spent money for expensive commodities.

The matter of receiving the mark-dollar in connection with James V. Young making the purchase of \$1.10 will be proven utterly false, as charged by the state, he said, and that a different light would be thrown on the matter. He again intimated that the cash register had registered falsely in this transaction.

In making his concluding statement, he said that the defense would prove that the girl had at no time

received money from the Star carriers, and that her character would be proven good by witnesses in every walk of life.

**BIBLE THOUGHT**  
**—FOR TODAY—**  
 Bible thoughts memorized, will prove a  
 priceless heritage in after years.  
**GOD'S IMAGE:**—God created  
 man in His own image, in the image  
 of God He created him. And God  
 saw everything that he had made,

 Genesis 1:27, 31.

**No Rough-House Tactics**  
 The mere fact that President  
 Harding asked the senate to endorse  
 the protocol for the international  
 court at The Hague does not mean  
 that there will be executive pressure  
 for favorable action. Neither does it  
 mean that the proposition will be  
 even a minor issue in the presiden-  
 tial campaign next year. The presi-  
 dent's message was sent to the sen-  
 ate so late in the session that action  
 was impossible before adjournment.  
 Mr. Harding knew that such would  
 be the case and made no attempt to  
 force immediate consideration. His  
 real purpose in submitting the sug-  
 gestion when he did was to get it  
 before the country in advance of the  
 nine months' recess of the senate.  
 The people will have until next De-  
 cember to go thoroughly into every  
 phase of the question, and when it  
 is taken up again by the Senators their  
 constituents will be in position to  
 make intelligent comment upon it.  
 President Harding has felt very  
 deeply on some of the measures that  
 he has recommended to congress, but  
 in no case has he attempted to bring  
 pressure to bear to win his point. His  
 attitude has been in striking con-  
 trast with that of his predecessor in  
 the White House. Mr. Wilson thought  
 the end justified the means, and never  
 hesitated to use federal patronage  
 and threats to coerce members of  
 Congress to vote for his policies. He  
 even went to the extent of urging the  
 electronic in certain states to defeat  
 senators who had had the courage  
 to oppose some of his pet schemes.  
 His impudent threat to the senators  
 of the sixty-sixth congress that he  
 would make them accept the league  
 of nations covenant without the dot-  
 ting of an "i" or the crossing of a  
 "t" is a matter of notorious record.  
 In presenting his recommendation  
 for the entrance of the United  
 States into the world court, Mr.  
 Harding stated his case and he will  
 accept with equanimity the decision  
 of the senate after it fully debates  
 the matter next winter. It may be  
 that the president will touch upon  
 the subject when he tours the coun-  
 try this summer, but the people may  
 rest assured that there will be no in-  
 timation in what he says that the  
 senate or the public should subordinate  
 their judgment to the executive  
 desires.

**Rattling Around**  
 Three thousand or more years ago  
 King Tut reigned in Egypt. Tut was  
 a great old boy and a very rich king,  
 and when he died he caused much of  
 his wealth and treasures to be bur-  
 ied with him, in order that he might  
 have kingly rank in Paradise.  
 His grave was recently discovered  
 and opened and its treasures exposed  
 to the envy of modernity.  
 Very rich men of today do not  
 have their wealth buried with them.  
 It is needed to support their gilded  
 offspring in idleness.  
 Back in those days it is assumed  
 that a young man stood on his own  
 feet.  
 Today many of them merely rattle  
 around in their dad's old shoes—of  
 less value than the shoes.

**THE HOME GARDEN**  
 What is Home without a Garden?  
**ALL ABOUT RADISHES**  
 The older type of long radish, with  
 a tapering root, matures in from 30  
 to 45 days, and remains a correspond-  
 ing time without becoming pithy, so  
 these are relied upon for producing  
 a succession of crops in the garden.  
 The most popular long variety for  
 home garden use is Icicle, maturing  
 in 30 days, sometimes reaching five  
 and one half inches in length. All  
 radishes, it must be understood, may  
 be eaten before they mature, and in  
 the home garden are to be preferred  
 so.  
 There are globe-shaped radishes  
 of longer season, growing much lar-  
 ger than the early types, such as  
 Crimson Giant, maturing in 32 days,  
 and White Box, maturing in 35 days,  
 and growing to two and one-half  
 inches in diameter. White Stras-  
 bourg is a long white summer variety  
 growing large, and maturing in 40  
 days, and Chariot is a red still later  
 and larger, for hot weather growing.  
 Of the huge radishes known to  
 growing vegetables, in that they re-  
 quire to be harvested immediately,  
 upon maturing. In a day or two  
 more and they turn pithy and are  
 useless. To get them up properly  
 they must have ideal conditions,  
 which for radishes include a rich,  
 loose soil, plenty of water and  
 cool weather. They cannot be grown  
 in our summers.  
 Market gardeners usually avoid  
 these sprinters of the radish tribe,  
 and sow such second earlies as early  
 scarlet globe, which matures in 25  
 days, and scarlet turnip white tip,  
 or sparkler, which takes 28 days to ma-  
 ture. Both of these remain edible  
 longer before turning pithy.  
 The radish has been cultivated in  
 gardens since remote times. The  
 Greeks served it on gold plates in  
 sacrifices to Apollo. Pliny tells of  
 radishes in Rome that weighed 40  
 pounds. It was introduced in Eng-  
 land in 1500. Queen Elizabeth had  
 the choice of four varieties, each of  
 which no doubt some one considered  
 to be the best. The varieties we now  
 enjoy are the lineal descendants of  
 those historic sorts, and each has  
 points of peculiar merit, otherwise it  
 would be quickly abandoned.  
 Modern improvement in the rad-  
 ish has been along the line of short-  
 ening the season to maturity, and  
 quick growth has been accompanied  
 by a shortening of the root, produc-  
 ing the olive and globe-shaped types.  
 Ancient radishes were larger, longer,  
 stronger and slower of growth. The  
 fastest growing variety now known  
 is an olive-shaped white, called ear-  
 liest white olive, which matures in 15  
 to 18 days after sowing. A red olive  
 variety, generally known as the 20-  
 day radish, is next, maturing in 20  
 days. These very rapid growing var-  
 ieties have the defect of most fast

## DEMPSEY TO GET CHANCE TO BOX

Boxing Commission is Ready to Entertain Plans For Bout With Gibbons This Summer

RICKARD MAY PROMOTE

Deal Will Hinge in Fight Between Gibbons and Renault, a Canadian Aspirant

By HENRY L. FARRELL  
(U. P. Staff Correspondent)

New York, April 6—Jack Dempsey will get a job in the ring this summer even if the bars should be held up against Harry Wills and the peso market should crash in South America.

The act of the boxing commission in promising permission for a Dempsey-Gibbons bout if the St Paul challenger should beat Jack Renault, the Canadian, makes the proposed Dempsey-Gibbons bout ready for the promoters.

Tex Rickard, beyond doubt, is willing to make both matches. He has looked with favor on a bout between the champion and Gibbons for some time and he had it all ready for the making when the commission gave it. The bout on grounds Gibbons was too small.

Gibbons should have no trouble with Renault, who for some reason, seems to be very highly regarded by the commission although his record does not qualify him as a great fighter. He came into prominence recently by defeating George Godfrey, a colored heavyweight, who was being built up to fight Harry Wills. Just a few days ago Renault was thrown out of the ring in a contest for not trying.

As more evidence of the favor into which he has fallen with the commission, Renault was asked to be around the ring on May 12 ready to step in if anything should happen to Jess Willard or Floyd Johnson.

There seems to be a big hunch around town that something will happen to Willard and that he will not appear on the milk fund card.

While he was here pleading the case of Tom Gibbons with the New York solons, William P. Sailor, chairman of the Minnesota commission, told the New York bosses that the people out his way thought a mistake was being made in allowing Willard to return to the ring in an important bout.

"Willard was out in our neighborhood on his barnstorming tour and he looked terrible," Sailor said. "Most mediocre sparring partners, seem to have a thing against the most mediocre sparring partners. We certainly would not stand for him in Minnesota."

Any number of better opponents could have been selected to give Johnson a real tryout but the young Iowa is going through a build up for a bout with Dempsey and Willard in addition to being very safe for the purpose would make a good looking name on his list of victims.

## American Horse Wins British Classic for First Time

Sergeant Murphy, 13-year-old horse owned by Stephen Sanford, son of John Sanford, one of America's leading horsemen, going over a jump in the British Grand National. That race is the most hazardous of all steeplechases, the horses taking 30 jumps in a course of four miles, 856 yards. Sergeant Murphy is the first American-owned horse ever to win the classic. He paid his backers 100 to 6.

### Gives Giants High Rank

By HENRY L. FARRELL  
(United Press Sports Editor)

New York, April 6—To win the 1923 National League pennant and their third championship in successive years, the New York Giants will have to beat two very formidable rivals in the Cincinnati Reds and the Pittsburgh Pirates and a third threat in the St. Louis Cardinals.

Perhaps it is not a question so much of what the Giants will do as it is what the results Pat Moran, Bill McKechnie and Branch Rickey get out of their material.

The stability and balance of the Giants over the long April to October route is well known by recalling their 1922 performance when only once, during the week of July 22, did they relinquish their hold on first place after they slumped around the first week in getting started.

It might be argued that the Giants are no stronger this spring than they were last April, but it cannot be denied that they are no weaker.

If Jimmy O'Connell lives up to his \$75,000 price tag in centerfield, the Giants will be much stronger. If he fails the club will be no weaker, because McGraw has Stengel and Cunningham in reserve and they filled the bill acceptably last year.

Another big factor in considering the strength of the team centers around the legs of Heinie Groh, but even if the under-pinning of the little third baseman goes bad on him again, McGraw would not be in desperate circumstances, because he is well fortified with reserve material that has been tried out in actual combat.

### DIXIE DUST

Vicksburg, Miss.—Five runs piled up in the eleventh inning gave the Chicago White Sox a 10 to 5 victory over the New York Giants.

Monroe, La.—Lacing Dickerman, a rookie pitcher for five runs in the seventh inning, the Yankees won their third straight victory from the Brooklyn Robins by a score of 9 to 4. Babe Ruth got one single in four times up.

San Antonio, Tex.—With the score 17 to 9 in favor of the Cubs, the umpire called the game with San Antonio yesterday in the eighth inning because of darkness and hungry spectators. Outfielder Fitzgerald was called home by word his mother was dying.

Philadelphia — Battered and scarred after their training season, the Phillies arrived home today.

Richmond, Va.—The Athletics arrived here today to play one game with Richmond.

Tulsa, Okla.—The Pirates swamped Tulsa 10-1. Manager McKeech announced that George Boyle, local recruit had been purchased by the Pirates in a deal involving \$35,000.

Much, of course, depends on the pitching staff, but after the stunt that McGraw pulled last year in winning the pennant with a staff of perfect misfits, it is no exaggeration to predict that the Giants' leader can get along with any kind of pitching.

If the Giants' huplers do not improve this summer, it is almost impossible for them to be more unreliable than they were last year. Chances, however, are that McGraw will not have the worries he staggered under last season.

The Giants' leader has many gambles among his hurlers, the most advertised of which is Jack Bentley, for whom the Giants gave Baltimore \$65,000. If Bentley delivers, McGraw will have the best left-handed pair of workers in the league, which the possible exception of the Bentley-Rixey Cincinnati combination.

Looking over the other pitchers, it would seem that Nehf ought to improve, if he is not worked so much. Scott should be a big help, if he stays in condition and works all season as well as he did in the dying days of the last pennant race. McQuillan is an uncertainty, with the potential qualities of a twenty-game pitcher. The Barnes brothers are hard to figure, but they have to improve, if there is any change in them.

In young Jomard, McGraw has placed great hope. He has had promise all along and it seems this spring he has arrived. McGraw also is very optimistic about two rookie pitchers, Webb and Walberg, and the Colgate College hurler, Blume, might deliver.

All in all, it looks that the Giants staff, if it is no better is not worse than it was last year.

Tampa, Fla.—In an effort to bolster up his pitching staff, Manager Bush of the Senators is trying out Reil, a young hurler with the Tampa Smokers.

Memphis, Tenn.—It took the Boston Red Sox ten innings to defeat the Memphis Southern Association team 4-3 here yesterday afternoon.

Augusta, Ga.—The Detroit Tigers have a team batting average of .362 for 9 exhibition games. Del Pratt is the leading hitter with 18 hits in 35 trips to the plate.

Atlanta, Ga.—The Indians are here for their opening game with the Toronto Internationals. Guy Morton and Jim Baksted will probably do the twirling.

### RECORD FOR ATTENDANCE

Indianapolis, April 6—A new record was set for attendance for the basketball finals held in Indianapolis March 16-17, according to figures made public today by P. R. ## The Ingredients of Success!

### Survey Reveals the Factors Which Aid in Achieving Life's Goal.

NOTHING succeeds like success, saith the adage. True, perhaps, although the opulent pan-handlers on the streets of any large city are examples of highly successful failures. But admitting the truth of the adage—admitting that good clothes, a confident manner, the atmosphere and attitude of success, are levers of greatest power in prying further success from a reluctant world—what are the chances of the average individual of taking even the initial step toward the coveted goal?

It depends on a number of things. It depends on age, the state of being married or unmarried, on the number of dependents of the individual, and membership in lodges, just to name a scattered few. But the results of having a large family, for instance, in relation to success, are not just what one would hastily conclude.

Survey Based on Large Group  
Feeling that success in life is probably the thing for which

49 51

63 37

OF 100 MEN WITH TWO OR MORE DEPENDENTS, 63 ARE SUCCESSFUL

### CHILDREN BRING SUCCESS

more individuals are striving than any other, and sensing also that there were certain definite factors underlying success, the Phoenix Mutual Life Insurance Company during a period of years made a survey of hundreds of representa-

tive individuals—without the individuals knowing that they were being surveyed. These individuals were studied, classified, tabulated, and checked one against another, always from the standpoint of their worldly success. For convenience in compiling final tables on the subject the figures were arranged in groups of one hundred each. And some startling things were discovered.

While this survey, like most studies of its kind, applies only to a limited group, and is not proposed as a standard mathematical accuracy for every individual everywhere, it is based on factors which constitute the life of all men and as such is of general interest and value.

These figures, and the charts accompanying them, will aid any person in calculating the odds for or against himself in the race for success. Other elements enter which have not been tabulated of course. But those tabulated are sufficiently fundamental and sufficiently powerful to be considered the controlling factors in the life of the average individual.

Organization Affiliations Value  
Are you a "joiner"? Do you belong to the Amalgamated Brotherhood of Sea-gulls? And to the Synchronized Society for the Preservation of Niblicks? And to the Men's Auxiliary of the Affiliated Republicans of the Fifth Ward? And to Why Giva a Whoopsilon? Better still, do you

hold the office of Exalted Grand Whoosis in any of these organizations, or in all of them?

Seriously, your chances of success are better if you do. The tables compiled by the Phoenix Mutual Life Insurance Company show that the individual who belongs to one organization or less has 43 chances for success out of a hundred, whereas, belonging to two, he has 58 chances; to three or four, 62 chances; and to five or over, 68 chances. This membership in organizations, as tabulated, is considered without relation to any of the other elements entering into success, you understand. The comparisons are on the basis of organization membership alone, as each one of the other factors

tabulated is considered alone, and then grouped for a final consideration of the score of the individual.

A man holding office in two organizations, or less, has 59 chances of success as compared with 43 chances for the man holding office in three or more.

### Married Man Has Better Chances

A married man has 59 chances of success to 49 for a single man, notwithstanding the wife-baiters who accuse their usually very-much-better halves of being mill-stones around their necks.

A man with one or no dependents has 49 chances for success to 63 for the man with two or more dependents. It appears that a

man with a large family has to give the best he has, and as he gives, so he gets.

Are you one of these old fellows of 32 who mourn his departed youth, feeling that he's slipping as age creeps on him? Know, then, that you are just entering the age of greatest value to yourself and the world. The chances of your success between 33 and 38 are about 64 out of a hundred, as compared to 49 for the youngster of 23 or under. From 24 to 32 the chances of success increase to 58 out of a hundred. After the prime of life there is a decrease in chances, to 53 out of a hundred, and the man over 45 has just a fair gambler's chance, "fifty-fifty."

### Experience a Big Factor

The average young fellow just out of college or high school feels fit to lick the world. He doesn't often do it, for the first few years, but if enthusiasm were the only ingredient of success he would start at the top.

The figures compiled by the Phoenix Mutual Life Insurance Company bear out, with mathematical exactness, what men just out of school have almost invariably discovered. Enthusiasm must have the backing of that sober, dependable fellow, Experience. As a team they are almost unbeatable.

The man who has been out of school nine years or under has 60 chances for success in a new field, while one who has been out over nine years has 73 chances. Worldly wisdom, experience, do count. Do you own your home? The

National Association of Real Estate Boards, which has been advocating home ownership so strongly, may be glad to know that the home owner has about 63 chances for success to 43 for the renter or boarder.

### Investments a Good Indication

Other investments help too. The man with no investment, or only one, has 46 chances for success, as compared with 54 for the man with two investments, and 74 for the one with three or over. Life insurance, which may be considered a further investment, gives a man 59 chances of success to only 47 for the man without it.

These nine items, considered basic factors in the determination of success, make possible a high score of 606. That is, if an individual ranks in the highest class in each of the nine divisions, and the success points allowed in each of these high classes are added, his score is 606. If he ranks in the lowest class in each division, his score is 454. The chances of success of the first individual as compared with the second are therefore as 606 to 454. Most people

### MARRIED MEN HAVE BETTER CHANCE

will score somewhere between, by rating in the highest class in some divisions and in the lower classes in others. Half way between the high and low scores should be a fair "passing grade." That is 530.

There will be exceptions. There will be those who will violate every rule and succeed. But for the average individual, with average mental equipment, ambitions, and reactions, a score somewhere above 530 is going to mean a better chance to succeed than a score somewhere below.

How do you score? Count up, and see.

Nothing succeeds like success? Perhaps so. And then again, perhaps nothing succeeds like a home of your own, a wife to look after it, a few children to brighten it up and mar the woodwork, and a lodge to go out to on Tuesday night.

## More than 80 Percent of the Women Are Happily Married, Survey Shows

Statistics Touching Upon Social Hygiene Affecting Married Life Are Gathered By Bureau Of Social Hygiene, And Tabulated From 1,000 Questionnaires Received From Women.

New York, April 6.—More than 80 per cent of the married women of the country are happy, if a survey by the bureau of social hygiene reflects on conditions.

Out of 1,000 married women who answered a questionnaire sent out by the bureau, covering topics, ranging all the way from the effects of spooning to the practice of birth control, 1821 said they were happy. The questionnaire goes into intimate phases of life, and was mailed to 5,000 married and single women, most of them college graduates or in college.

"The purpose of this questionnaire is to obtain information on a schedule of great interest and to obtain it from perfectly normal people," Dr. Katherine Davis, general secretary of the bureau told the United Press today.

Heretofore such statistics have been available only from abnormal people. There is great interest in sex education, and before any attempt can be made to give it sufficient instruction in sex matters we must know just what the sex problem of the young are, what their stumbling blocks are. In a scientific manner we intend to collect and collate this information.

Seventy-four per cent of the married women admitted the practice of birth control. Health was the motive in 171 cases; economic reasons

in 156; only 25 did not care for children and more than 100 others actuated by a combination of health and economic reasons.

Courtship ardor is not necessarily an indication of marital happiness, the board found in its digest of replies on spooning. Forty one per cent of the happily married women disclaimed spooning before marriage; 22 per cent confined their spooning to their fiancées, and 37 per cent admitted promiscuous spooning.

Spooning answers included a number disclaimed "going too far," other just "kissed" and still others admitted "both hugging and kissing."

Eight pages of questions comprise the questionnaire, and the following are typical of the spooning phase:

"How old were you when you first began to spoon?"

"What effect, as you estimate it now, did spooning have on the quality of your character?"

"Did you indulge with one or more young men in the intimacies usually embraced in the term spooning?"

"If so, how far did you go in spooning?"

"The bureau was established by John D. Rockefeller, Jr.

### VETERAN OF 80 REFUSED TO PAY ANY ALIMONY

Little Rock, Ark., April 6.—"Uncle" Dow Davis, 80, member of General Lee's staff and four times married, has taken the spotlight after many years of tranquility on his farm near here.

"Uncle" Dow faced jail for refusing to pay alimony to his fourth wife. Mrs. Davis left her husband recently alleging "barbarous" treatment.

This Davis sternly denied. Davis was ordered to pay temporary alimony pending outcome of the divorce suit now before the courts.

He refused saying that he would go to jail first. He was not sent to jail but his 40-acre farm and homeplace was sold by the court and the money used for alimony.

## Buick Authorized Service

A Valuable "Part" of Every Buick

Equally important with the universally admired performance ability of Buick cars is Buick Authorized Service.

The insurance that the nation-wide Buick Authorized Service system provides for every Buick owner increases the confidence that comes through testing Buick dependability in every kind of motoring.

Buick Authorized Service of the same uniformly high standard, no matter where it is found, has resulted in conviction on the part of automobile owners that Buick Authorized Service is in itself a valued part of the Buicks they purchase.

Organizations, Clubs And Associations in List Sponsoring Riley Hospital Drive

TO RAISE GOAL IN STATE

Many Of These Have Already Sent Donations In Campaign That Will Yield \$2,000,000

Indianapolis, Ind., April 6.—Twenty-two organizations, eleven of them having affiliated bodies in the various cities and towns of the state, are now engaged in raising, or have already raised, memorial funds from within their organizations, for the James Whitcomb Riley Hospital for children, it was announced at the state campaign headquarters here today. The names of the various organizations engaged in this work will be perpetuated by memorials within the completed Riley hospital in recognition of their work.

Among the organizations are the Indiana District Rotary and Kiwanis clubs; the Indiana Librarians' Association; Indiana Library Trustees Association; Indiana State Dental Association; Indiana State Federation of Clubs; Indiana State Nurses' Association; Indiana State Teachers' Association; Indiana State Parent-Teacher Association; Kappa Kappa Sorority; Woman's Relief Corps; Psi Chi Xi Sorority; Hamilton County Junior Red Cross of Noblesville; Exchange Club of Indianapolis; Indianapolis Federation of Parent Teacher Associations; Indianapolis Federation of Community Civic Clubs; Jewish Council of Women of Indianapolis; Riley Sewing Class of Indianapolis; Progress Club of Sheridan; Progress Club of New Palestine; Marion County American Legion Auxiliary; and the Indianapolis Women's Organization of the National Association of Retail Druggists.

A total of more than \$2,000,000 will be required for the successful completion of the Riley Hospital for children and construction work is now well under way on the first hospital building which, alone, will cost more than \$500,000. Plans are going forward for an active campaign in all parts of the state to complete the raising of the \$2,000,000 building fund, pledges being payable over a four-year period, one-fourth of the total pledged payable each year. The Riley hospital will treat more than 3500 sick and crippled children each year from all parts of Indiana.

**MORE THRILLING** than a Jules Verne romance were the adventures of Warrant Officer H. B. Smith on the famous Sub Chaser "Seneca," which left him almost a physical wreck. He gives Tanlac full credit for complete restoration.

**HUGH B. SMITH**

The many deeds of daring and heroism—thrilling rescues and hair-raising U-boat attacks—in which the U. S. submarine chaser, Seneca, participated from the Mediterranean to the North sea, furnishes one of the most interesting chapters of the entire World War.

The price that Hugh B. Smith, warrant officer on the Seneca, paid for his gallant part in these hazardous encounters, was a nervous system so shattered that he broke down completely.

"What I saw and went through," said Mr. Smith, "would leave its mark on any man. For two full years my nerves were at high tension all the time.

"When I got back to God's country, the reaction set in and I broke down completely. I was terribly nervous and irritable, had no appetite, and could not sleep except when ex-

hausted. I was also about fifteen pounds under weight, all of which made me realize something must be done.

"I resigned from the Navy but soon found out new environment and duties made no improvement in my physical condition.

"Finally a friend persuaded me to try Tanlac and after taking six or eight bottles of Tanlac I had gained fifteen pounds, was back to my normal weight, and felt completely recovered. Tanlac was a life-saver to me, and I heartily endorse it."

## DISTRICT LATIN CONTEST FRIDAY

Students From All Towns of The Sixth District to be Represented at Richmond For Contest

### LOCAL STUDENTS NAMED

Contest to be Under Direction of Paul Heironimus, Esther Brown and Cecilia Crane of Earlham

Richmond, Ind., April 6—The sixth congressional district Latin contest will be held Friday in rooms 57, 24 and 25 of Morton high school, when students from all the towns of this district take part. The contest will be conducted by Paul Heironimus, Esther May Brown and Cecilia Crane, all of Earlham college.

Contests will also be held this month at Columbus, Ind. and Frankfort, Ind. The contest at Columbus is attracting much attention of the schools in the southern part of the state and many schools are expected to be represented when the contest is held there, April 14. The contest at Frankfort will be held April 7.

Margaret Nice, Bob Hood and Martha Righter will represent Morton in the contest to be held here Friday. All of these pupils have studied hard during the past two months for the coming contest, and should do well in the division in which they are entered. There are three divisions to the contest:

Division 1—Open to all pupils who began the study of Latin in September of 1922.

Division 2—Open to all pupils who began the study of Latin in September of 1921 or February, 1922.

Division 3—Open to all pupils who have read Caesar or beyond.

Lucille Loufborough, a student of Morton high school, won the contest last year, but she will not be eligible to compete this year, according to a ruling made by the committee in charge.

Twenty-nine schools of this district have sent in their list of entrants for the contest. The list and its divisions follow:

Division 1—Voyle Ammerman, Cambridge City; Irene Baker, Mt. Comfort; Ralph Boggs, Brownsville; Edith Carson, Raleigh; Helen Carmichael, College Corner; Mary Cloud, New Salem; Richard Creek, Liberty; Clarice Ellingsworth, Portville; Elsie Faull, Charlottesville; Evelyn Flemming, Kennard; Mildred Holbrook, Edinburg; Mabel Keener, Knightstown; Grafton Milton, Shelbyville; George Otto, Brookville; Bernetta Odell, Mooreland; Margaret Nice, Richmond; Clyde Pottinger, Milton; Reba Rayner, Green township consolidated schools; Theodore Rowe, Fountain City; Mary Saxon, Falmouth; Mary Seene, Boston; Ruth Smith, Centerville; Alice Stanley, Economy; Sylvia Tillison, Williamsburg; Esther Weber, Greenfield; Betty Waggoner, Rushville; Beryl Wicker, Manilla; and Martha Willis, Greenfield.

Division 2—Walter Bulloch, New Salem; Martha Alexander, Greenfield township; Lawrence Crawford, Milton; Hardin Callahan, Fortville; Virgie Carter, Charlottesville; Leila Dunbar, Greenwood; Gertrude Estelle, Raleigh; Louise Fletcher, Greenfield; Bob Hood, Richmond; Blaine Hiatt, Kennard; Catherine Halterman, Webb high school, Rushville; Florence Higgins, Liberty; John Labanche, Manilla; Horace Kiser, Knightstown; Ruth Ludwig, Brookville; Lucille McBain, Greenfield; Clarence Richeson, Shelbyville; Wilmer Rhineland, College Corner; Pearl Reed, Fairview township high school; Mary Reed, Rushville; Josephine Starr, Boston; Ruth Souther, Cambridge City; Isabelle Steele, Mt. Comfort; Edith Ward, Straughn; Zelma Whitis Brownville.

Division 3—Pauline Barrett, Greenfield; Clinton Fread, Milton; Esther Kauffman, Shelbyville; Opal Kuntz, Manilla; Elizabeth Manning, Rushville; Mary Lynch, College Corner; Hilda Perry, Cambridge City; Martha Righter, Richmond; Doris Steffey, Charlottesville; Mabel Wilson, New Salem.

# LIQUOR SEIZURES HAVE INCREASED

6,742,341 Gallons Of Liquor And  
Mash Confiscated In Last Six  
Months Of 1922

## U. P. OBTAINS FIGURES

In Enforcing Prohibition Twelve  
Agents Were Killed And Thirty-  
Three Others Were Maimed

Washington, April 6.—Prohibition  
enforcement seizures swelled to  
enormous figures in the last six  
months of 1922, complete data for  
the period obtained by the United  
Press today revealed.

The grand total comprising 6-  
742,341 gallons of liquor and mash  
77,873 pieces of apparatus, 2,211  
automobiles and 87 boats and  
launches, is valued by the federal  
prohibition bureau at \$8,788,875.

In its seizure twelve agents were  
killed and 33 others were maimed.

The incidental cost of making the  
captures aside from human life, is  
placed by the bureau at \$43,686.83.

Thus for the first six months of  
its finance year, the bureau's forces  
took and forfeited to the government  
property and liquor valued at but  
slightly below its appropriation of  
\$9,500,000 for the entire twelve  
months period.

A statistical summary of the work  
of the six months follows:

Arrests 34,253.  
SEIZURES.  
Distilleries 5,311.  
Still vorns, 3,583.  
Spirits 223,414 gallons.  
Malt liquor 2,369,149 gallons.  
Wine 367,978 gallons.  
Cider 43,703 gallons.  
Mash 3,682,688 gallons.  
Potomace 55,409 gallons.  
Fermenters 61,599.  
Automobiles 2,211.  
Boats and launches 87.  
Appraised value of apparatus and  
liquors \$6,911,627.21.  
Appraised value of automobiles  
\$1,100,000.85.  
Appraised value of boats and  
launches \$77,150.  
Fully two thirds of all the seizures  
except automobiles and boats have  
been destroyed by order of federal  
authorities after conviction of the  
law breakers. The remainder awaits  
trial of the persons arrested.

## BABY CAMEL BORN IN NEW YORK

## GETTING ALONG NICELY, THANK YOU

For the first time in ten years, a baby camel, born in New York,  
has lived over the critical age of the first two or three weeks. Here  
is the newest addition to the Central Park Zoo, New York City, a baby  
camel, three weeks old, with its mother and the keeper. Greatest care  
is being taken to keep the baby animal alive.
